

Phoenix Rod & Gun Club Policy

Title: **Guest Policy**

Approved by the PRGC Board of Directors 13 August 2014

To bring guests is a privilege of membership at PRGC. PRGC members are welcome and enthusiastically encouraged to bring guests to the club to introduce new shooters to the shooting sports and to the club.

There will be no “guest fee” for guests supervised by their PRGC-member host in a members-only setting.

Since PRGC incurs an expense to operate the public range, non-members shooting at the public range during public hours will be considered public shooters rather than guests and pay the public fee. Non-members shooting a formal per-fee event (such as a match) will pay the appropriate non-member fee for that event (if any).

The PRGC-member host is the supervisor of his guests and range master over their shooting during their visit.

A PRGC member may bring as many guests as they can safely supervise and not interfere with the other members or safe club operation. A member and guest can shoot at the same time, if two guests are shooting at the same time the member may not shoot but will be supervising the guests to insure compliance with range rules and firearm safety rules. No more than 2 guests can shoot at the same time. Deviations to this rule may be authorized by Division Directors, PRGC board members or Facilities manager.

PRGC members may not abuse this privilege by neglecting to supervise their guests or charging and pocketing a private range fee or operating for-fee training/shooting, or multiple adults sharing the cost of one “membership” to avoid each adult having to buy a full membership, or other manners of abuse.

Where the conduct of a guest or his PRGC-member host creates a safety risk or un-necessarily degrades the shooting experience for others at PRGC, that guest privilege may be rescinded.

Shoot chairman and division directors may offer complementary match entry or “shoot for free” passes to their events at their discretion and are encourage to do so in order to promote the club and the shooting sports. Club officers and RO’s may also offer free passes or discounts to the public range in order to promote the club and the shooting sports.
